Arrow II Satellite Antenna

AO27 Up-link 145.580 Down-link 436.800

The Arrow II line of antennas has been engineered to provide maximum gain and efficiency in the smallest practical size & weight. **ONLY 28 oz.**

Aluminum **Arrow Shafts** are used for elements.

The 2 in-line gamma matches (not shown) are pre-assembled & pre-tuned. One connector for VHF and one for UHF. These are BNC only.

The boom is $\frac{3}{4}$ " square (with round corners) 63" long. Note the big black foam grip for easy holding. Slide the back of the black foam handle grip forward to uncover $\frac{1}{4}$ "-20 threaded tripod holes.

Boom & elements all have plastic tips for safety.

Guarantee

No hassle refund

SIMPLY THE BEST

Installation:

1. Remove the foam grip and the plastic end cap from the boom.
2. Slide the Duplexer in the end of the boom at an angle. Reseat new plastic end cap.
3. Using your finger, apply some corn starch to the inside of the foam grip and to the antenna cables and boom.
4. Slide the foam grip over the coax cables and boom as shown above.
5. Blow the corn starch off with an air can or compressed air.
